Binocular History Society Meeting October, 06. – 08. 2017 in Munich

July 2017

Dear friends of the Binocular History Society, dear binocular collectors,

for our **Binocular History Society** Meeting from 6.-8.10.2017 in Munich many new and old interested parties of historic binoculars and optics have already registered.

Due to organizational reasons, we had to ask for binding registrations for this meeting already quite early, namely in January 2017, to make sure a financially acceptable organization is possible.

For many it was not easy to decide already in January for a fixed date in October but many did so nonetheless and so our BHS Meeting 2017 in the Hotel Hilton Munich City got secured. However, many for good reasons could not make a binding decision at this early stage.

For those fellow collectors, whose calendar only now gives the green light for a potential participation our fellow collector Martin Soerensen who is part of the Hilton Munich management extended the conditions for a significantly reduced room rate until end of July.

For all participants who would like to stay overnight in the hotel Martin has offered us a special rate of 129.00 EUR for double and single rooms per night incl. breakfast.

We ask room reservations to be made in person at Hotel Hilton Munich City.

HILTON MUNICH CITY

Address: Rosenheimer Strasse 15, 81667 München, Deutschland

Phone: +49-89-48040

Fax: +49-89-48044804

Email: info.munich@hilton.com

For further information, we have added a list of participants registered so far and the schedule that is mostly complete till now.

For all events listed in the schedule and for the common dinners there are still seats available and fellow collectors and interested parties in binoculars who only now can resolve upon participation are cordially welcome.

What is new in this schedule is that Jürgen Laucher will conduct a little city tour through Munich for already present fellow collectors and their partners on Friday before noon.

For the first time, we will also make a common bus trip that is sponsored by company Swarovski. This trip leads us to Benediktbeuern close to lake Tegernsee. There we will visit the Fraunhofer glass factory and museum.

Please address registrations for the BHS Meeting 2017 in Munich to Jack Kelly binocs2@gmail.com or Jürgen Laucher juergen.laucher@t-online.de.

We are looking forward to a successful meeting, seeing old and new friends and lots of interesting talks.
